C-Monster 2.0 Controllers

Battery Replacement (Dash Switch)
IMPORTANT: Make sure battery replacement is done in a dry location.

STEP 1: Remove the (2) screws using a Phillips-Head screwdriver.
STEP 2: Remove Dash Switch Cover using a Flat-Tip Screwdriver. FIG. 1
STEP 3: Remove Switch Membrane and Circuit Board from the base. FIG. 2
STEP 4: Remove battery from holder and replace with a CR2032 3v Lithium Coin Battery.
STEP 5: Reassemble Dash Switch. Make sure Switch Membrane is seated properly.

Battery Replacement (Key Fob)
IMPORTANT: Make sure battery replacement is done in a dry location.

STEP 1: Remove Key Fob Cover using a Flat-Tip screwdriver. FIG 1
STEP 2: Remove Switch Membrane and Circuit Board from the base FIG 2
STEP 3: Remove battery from holder and replace with a CR2032 3v Lithium Coin Battery.
STEP 4: Reassemble Key Fob. Make sure Switch Membrane is seated properly.

General Statement (for all devices)
Warning: Changes or modifications to this device not expressly approved by JL Marine Systems, Inc. could void the user’s authority to operate the equipment.

FCC Specific Statement
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
• Consult the dealer or an experienced radio/TV technician for help

FCC Part 15.19 Warning Statement – (Required for all Part 15 devices) THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRED OPERATION.

FCC/ISED RF Exposure
ENGLISH: This equipment complies with radiation exposure limits set forth for an uncontrolled environment. This equipment is in direct contact with the body of the user under normal operating conditions. The transmitter must not be colocated or operating in conjunction with any other antenna or transmitter.
FRENCH: Cet émetteur est conforme aux limites d’exposition aux radiations dans un environnement non contrôlé. Cet émetteur est en contact direct avec le corps de l’utilisateur dans des conditions de fonctionnement normales. Le transmetteur ne doit pas être co-localisé ou opérant en conjonction avec tout autre antenne ou transmetteur.

©2019 all rights reserved. Power-Pole Shallow Water Anchor U.S. Patent No. 6,041,730
PAIRING INSTRUCTIONS (All Controllers)

STEP 1: Press and hold the PROGRAM button on top of the unit for 3 seconds [LED will turn GREEN/HPU will beep].

STEP 2: Press the UP or DOWN button on controller for one second. When Paired, the GREEN LED will turn off then flash steadily [HPU will also beep].

Pairing Dual Power-Poles: Repeat steps 1-2 to pair remote to the other pump. Both pumps can be programmed to a single controller.

NOTE: The first time a remote is paired with a recently updated pump it may perform a firmware update. Remote will blink for 1 minute. Do not interrupt power to pump or remote during this process. Blinking will stop when update is finished.

INSTALLATION INSTRUCTIONS (Dash and Foot Switches only)

STEP 1: Place switch flush in desired location and drill holes with a 1/8” drill bit/electric drill. Use Switch holes as guide.

STEP 2: Fasten switches using the supplied screws and Phillips-Head Screwdriver.

OPERATING INSTRUCTIONS (All Controllers)

• Press and hold the UP/DOWN button on any controller to raise/lower the Power-Pole Anchor.

Auto Mode:
• Double tap the UP/DOWN button on any controller.
• Can be changed to single tap via the C-Monster app.

Speed Control (Dash switch Only)
• Press the SPEED button on the switch to toggle through the 3 speed settings (slow, medium, fast).
• All Power-Pole Anchors are programmed to 70% speed. Maximum speed can be changed in the C-Monster App.

Dual Operation
• Press the DIRECTIONAL button on Dash Switch to toggle through the three settings (port, starboard, or simultaneous control).
• Only Dash Switch can operate port/starboard anchors separately.

Battery Replacement (Foot Switch)

IMPORTANT: Make sure battery replacement is done in a dry location.

STEP 1: Remove screws using a Phillips-Head screwdriver.

STEP 2: Remove Foot Switch Cover using a Flat-Tip Screwdriver. FIG. 1

STEP 3: Remove Switch Membrane and Circuit Board from the base FIG. 2

STEP 4: Remove battery from holder on back of circuit board and replace with a CR2032 3v Lithium Coin Battery.

STEP 5: Reassemble Foot Switch. Make sure black caps click when pressed. If caps don’t click, rotate board 1/4 turn and reinstall. FIG. 3 & 4

NOTES:
• Switches must be mounted on flat surface.
• Do not overtighten screws.
• Dash Switch may be installed with screws or adhesive strip.
