# PONTOON DECK MOUNT ADAPTER PLATE (SHORT-LONG) INSTRUCTIONS

## Hardware:

- A.** (1) PK-D-8-11-U
- B.** (2) Backer plates
- C.** (4) 3/8" x 5" All thread bolts
- D.** (20) 3/8" Heavy thunder washers
- E.** (12) 3/8" Lock nuts
- F.** (4) 3/8" x 2.25" Bolts
- G.** (4) 3/8" x 7/8" Neo-bond washer
- H.** (4) 3/8" x 1.75" Bolts
- I.** (1) Deck mount scab (Upper)
- J.** (1) Deck mount scab (Lower)

## Installation Tools:

- 9/16" Socket with Ratchet
- 9/16" Wrench
- 13/32" Drill Bit
- Pencil

## INSTALLATION

### STEP 1 Choosing a deck mounting location:

- 1.1 Place the deck mount adapter plate **(A)** & deck mount scab **(I)** on top of the boat deck directly behind the pontoon. The deck mount scab **(I)** has a beveled edge that should face up. **FIG. 1**.
- 1.2 With the deck mount adapter plate **(A)** & deck mount scab **(I)** in position ensure the underside of the boat deck has adequate clearance for the 5" mounting bolts **(C)** as shown in **FIG. 2 or 3**.

**CLEARANCE:** Turn and tilt the outboard motor through its full range of motion to ensure clearance when mounting the Power-Pole Shallow Water Anchor.

Figure 1

**SWIFT. SILENT. SECURE.**

**STEP 2** Mounting the Deck Mount Adapter Plate:

2.1 Once the mounting location has been selected, mark the mounting holes.

**NOTE:** These holes should pass through a stringer as shown in the preferred method **FIG. 2** or have adequate space to install the Backer plates (**B**) as shown in the alternate method **FIG. 3**.

**IMPORTANT:** Carefully inspect and confirm your desired mounting location BEFORE drilling any holes.

2.2 Carefully drill the marked holes with a 13/32" drill bit ensuring clearance underneath the deck mounting area.

2.3 Install the hardware with upper and lower deck mounts scabs (**I**) and (**J**) in place as illustrated for the preferred method **FIG. 2** or the alternate method **FIG. 3**.

**STEP 3** Mounting the Power-Pole® Shallow Water Anchor to Deck Mount Adapter Plate:

3.1 Place neo-bond washers (**G**) onto bolts (**F**) with the rubber side facing the threaded end of bolts (**F**).

3.2 Insert bolts (**F**) through the Power-Pole stern bracket, adapter plate (**A**), heavy thunder washer (**D**) and lock nuts (**E**). Tighten the lock nuts to 240 inch pounds / 20 foot pounds of torque **FIG. 4**
